

## THYME OUT

Thyme Out From  
Eczema, Acne, Psoriasis,  
Rosacea, Dermatitis, Foot  
Fungus, Cold Sores, and even  
Pet Rashes!

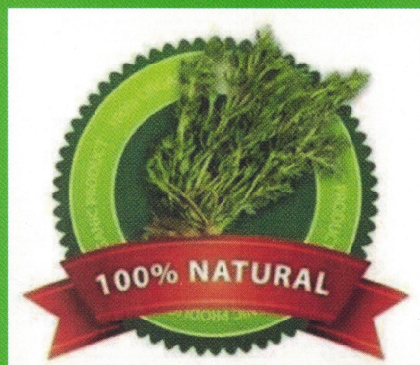

Virtually every skin issue can be traced to a source of viral, fungul, or bacterial origin. Hormones, allergies, stress, and diet can all lower the body's natural defenses against these sources but they don't normally cause the skin issues.

Thankfully, THYME OUT is a naturally powerful 100% organic anti-viral, anti-fungul, and anti-bacterial so it fights the source regardless of its cause.

Quite simply, this powerful anti-inflammatory is unmatched for skin conditions as well as countering the source of the inflammation.
